

INTRODUCTION

TO

UFO INFO. EXCHANGE LIBRARY

We are sure that the information outlined below will be of assistance to you in your varied and fascinating researches into the UFO phenomena.

As many have found during studies of this intriguing subject, so many difficult and varied subjects and much valuable time wasted by searching endlessly through scores of separate material for further breakthroughs.

It is obvious that a fresh approach is needed, and for this reason a few friends have got together to begin a project of information exchange which we feel sure will benefit everyone interested in finding some or all of the answers to the UFO enigma.

This honest attempt in our mutual quest for answers is totally NON-PROFIT MAKING, and in this way the project will be open to everyone regardless of standing. There is no one person in charge as everyone enjoys the same status. Therefore, No membership, No rules to abide by, and the wishes of the individual are strictly abided by.

What we require from you, the individual, is any information concerning UFO's and allied subjects, including ideas, thoughts, in fact ANYTHING which will help all of us to complete unit piece together the puzzle of the UFO's. This can be sent to us preferably on tape (cassette) but also in written and typed form -- in fact any form available to you.

What you will receive in return is information that you require to aid you in your research. What ever your problem, we feel sure that we can supply you with information that will be of value to you. All you have to do is ask. If our opinions are thought to be of value, then please ask for them.

Our aims then, are quite simply;

The exchange of taped information (cassette).
The exchange of written materials.

ALSO

Lists of available material including Books, Tapes, Magazines
typed interviews, Optical Instruments etc.
The meeting of minds for discussion.

It is hoped to put people in touch with one another for their mutual interest in aspects of the UFO subjects. We also reserve the right of the individual to remain anonymous.

The only costs entailed will be the cost of a tape or replacement tape, a s.a.c and post and packing. Also if you require further copies of our magazine, please send a s.a.c. to cover the cost of postage, that is the price on the envelope of this magazine. In our last magazine we said we hoped many would join us, well they have, we have printed 900 magazines this time when in April we only printed 250 so the response has been very good. We hope you enjoy this magazine. We look forward to hearing from you all again for the September edition.

Best Wishes UFO INFO EXCHANGE LIBRARY.

We would like to thank the Cultural and Information Attaches of the twenty two foreign embassies and High Commissions, through whom we are able to distribute this magazine and in return gather International information.

Also Special thanks to all the readers of the April magazine who have helped us to grow so rapidly, and also for the constant flood of data that keeps coming in, and especially to all the readers who have sent us contributions towards the running of the magazine. Without your help we would not have been able to produce as many magazines as we have done. THANK YOU ONCE AGAIN, AND OUR BEST WISHES TO YOU ALL.

SPECIAL NOTICE

UFO INFO EXCHANGE LIBRARY is happy to announce that the EARL OF CLANCARTY, who, as the Hon Brinsley Le Poer Trench, is well known as a leading figure in the research and investigation of the UFO phenomena, has accepted our request to become our Patron.

Throughout the years, the Earl of Clancarty has become one of the most respected figures in the field of Ufology, and has been advisor and consultant to a number of well known UFO publications and organisations. His quest for the truth has lead him to become a regular contributor to the FLYING SAUCER REVIEW, WHICH IS RECOGNISED AS THE LEADING UFO PUBLICATION IN THE WORLD.

He was one of the founders of CONTACT U.K., and is also involved closely with BUFORA, - British Unidentified Flying Object Research Association, and a former Editor of the F.S.R.

The Earl of Clancarty is now a member of the House of Lords.

Allist of his books are as follows:

THE SKY PEOPLE.	Neville Spearman Ltd.
MEN AMONG MANKIND.	Neville Spearman Ltd.
FORGOTTEN HERITAGE.	Neville Spearman Ltd.
The FLYING SAUCER STORY.	Neville Spearman Ltd.
OPERATION EARTH	Neville Spearman Ltd. and TANDEM
THE INTERNAL SUBJECT	Souvenir Press and PAN
SECRET OF THE AGES	Souvenir Press and PANTHER.

The Exchange Library is proud to welcome this great seeker of the truth, who has never been afraid to speak in favour of the existence of these strange aerial objects in our skies.

We hope our association will be a happy and fruitful one, and that our mutual interests will become a launching pad for some of the answers to the UFO mystery.

'TEAM OF TOP SCIENTISTS SAY THEY'VE FOUND THE
SECRET OF HOW UFOs FLY.'

In a sensational scientific breakthrough a team of three top French scientists report that they have solved the mysteries of how UFO's are powered, why they hover like helicopters - and how they can zip through the air faster than sound without creating a sonic boom. And the researchers say their discoveries show it is possible for Earth scientists to build a flying saucer within 8 to 10 years - and maybe far sooner.

Two members of the team already have built a working model of a UFO engine. They've also created a two inch model of a flying saucer which has achieved a simulated speed in a wind tunnel of three times the speed of sound - without causing a sonic boom. The respected trio's discoveries are so breathtaking that even the austere French Academy of Sciences so conservative it still doesn't officially admit that UFO's exist, has published a scientific paper by one team member on flying saucer propulsion - complete with diagrams of a flying saucer, and U.S. scientists are so impressed that they had two team members, Physicist Dr. Jean-Pierre Petit and space scientist Dr. Claude Poher, discuss their discoveries at symposiums in Chicago, San Francisco, Los Angeles and New York.

Dr. Petit and astronomer-engineer Dr. Maurice Viton built their UFO engine with the aid of Dr. Poher's statistical and aerodynamics knowledge at Viton's laboratory in the government run Astronomical Observatory at Marseill.

'It took Viton and me 7 years to put our theory of UFO propulsion into practise in a laboratory model', revealed Petit, who spoke with the ENQUIRER in an exclusive interview at his home in Aix-En-Provence France. "On the basis of our experiments, we feel we're within 8 to 10 years of building a UFO on earth. Then we'll be able to visit other solar systems just as UFOs visit us. All necessary elements are already available - It's simply a question of putting them in order.

Dr. Petit said his UFO engine is very complicated, utilizing both electro magnetic and nuclear energy. The working model is only one cubic yard in size, but is capable of delivering enormous power, he said.

Basically it's a miniature H-Bomb - but with one vital difference', he explained, 'An H-Bomb releases an enormous amount of uncontrolled energy in the form of heat and shock waves. Our engine captures and harnesses that energy to provide tremendous thrust'.

'In a flying saucer this energy is used to heat gases, causing them to expand and rush out through the top of the UFO, but remarkably a magnetic field pushes the gases downward along the craft's outer hull providing lift to the craft. Petit said the unique saucer shape of the UFO - a fact confirmed by thousands of sightings enables it to move swiftly through the air without producing a loud crashing sound. Prof. Poher agreed that UFOs are almost silent. 'The loudest noise ever heard from a UFO has been a sound like bees in a hive', he noted, 'That's exactly the sound produced by the Petit - Viton engine'.

The UFO's saucer shape is also the reason it hovers and sways like a helicopter while landing. You can see this principle in action by sealing two dinner plates together and putting them in a bathtub full of water. They'll sway as they sink to the bottom'.

Dr. Poher added, 'The Petit - Viton theory that UFOs use electro-magnetic fields also explains why UFO's interfere with car radios and other equipment as they pass. And it explains the light associated with them. There's no question that the work done by Petit and Viton is brilliant - a sensational breakthrough.

Taken from the National ENQUIRER

THE TEAM OF FRENCH SCIENTISTS THAT CRACKED THE MYSTERIES SURROUNDING UFOs ARE ALL HIGHLY RESPECTED RESEARCHERS. THEY INCLUDE:

Professor CLAUDE POHER, 47, Director of the Sounding rockets division at the National Centre for Space Studies, the French equivalent of NASA.

One of the Designers of Concorde, he is now working on the U.S. Skylab project. Recently, by using computers to analyze 35,000 sightings, Dr. Poher proved that UFOs really exist.

Dr. MAURICE VITON, 35, a leading French Astronomer and engineer who developed the super - powered Atlas telescope used on Skylab. He is a Laboratory Head at the Astronomical Laboratory and Observatory at Marseille.

Dr. JEAN PIERRE FIEIT, 38, a plasma physicist and senior department head at the french governments National organisation for scientific research.

SAUCER SEEN IN PERU

MAN SHOWS PHOTO AS PROOF OF UFO

LIMA, Peru (UPI) - A Lima architect Monday offered photographs to prove he stood 50 yards from a flying saucer "shaped like an overturned soup plate".

"I never thought I would see a flying saucer, much less photograph one," said Hugo Luyo Vega. "I think using the finest camera equipment in the world, I would never been able to do it again without the same luck that I had last Friday.

Hugo Luyo offered both his pictures and the word of client he had taken to the Lima countryside in search of a home site as proof of the event. He said he and his client had driven about 54 miles inland along the Rimac River when they came to a stop near a valley surrounded by tall hills.

In the midst of their survey, he said, "My client had driven about 54 obviously excited, told me he saw a shining object in the bottom of the valley that was advancing towards us extremely slowly. "The car was not far away. I ran back for my camera, because in that fraction of a second I thought I, too had seen something interesting.

"When I pointed my camera and took the picture, the object was less than 50 yards away from us and about 20 yards off the ground. "Suddenly, the object changed direction, headed toward the East and increased its speed.

It rose off the ground as if trying to avoid some high tension wires that came down from the top of one of the hills and crossed the valley, and disappeared from view. Hugo Luyo said the object was the colour of burnished silver. It was shaped like an overturned soup plate with a cupola on the top. "At the very top of the cupola, there was a round object giving off a fixed sky-blue light. Lower on the cupola, we could see a row of small windows like port holes in a ship". On the bottom of the object, he said, was what appeared to be "the propulsive force of the object.... a dark red throbbing light that was aimed toward the ground from a sort of turbine in the middle of the upside down plate. Near the turbine-like part, we could see protuberances, like half eggs!

The architect said only about 30 seconds elapsed from the time they spotted the object until it disappeared. But from the minute that I held in my hand the polaroid photograph, I had proof that what my client and I saw was not an optical illusion, Hugo Luyo said. "In the middle of the 3-by-4-inch photograph, we could see the flying saucer even the row of rounded windows, he said. After this experience I am convinced that flying saucers really exist. So is my client.

The Jewels of the Stars

By A Friend to our junior
member Ella.

Have you ever gazed in wonderment, enraptured by the beauty of the moonlight? At the bright array of stars that shower the dark backcloth of night with a million jewels, shining, sparkling, filled with heavenly majesty?

And have you ever thought, as you stand and gaze entranced at this brilliant canopy above your upturned head, how many worlds containing living beings are 'out there', many beyond the reach of our sight? If you have, then you must be aware that you are so tiny and as insignificant as a speck or grain of sand on the gigantic seashore of the entire Universe..... Yet a great teacher once told us, in his infinite wisdom and love for mankind: 'Ye are built in the image and the likeness of my Father. And he meant we are all an inseparable part of Divine spirit which embraces everyone and everything in life... And the same great teacher also told us: 'Suffer little children to come unto me, for of such is the Kingdom of God'. And when he pointed to his disciples and said: 'They are not of this world,' what could he have meant?

That they truly came from another world or planet among those countless jewels of sun systems in the skies? Or that they, like each and every one of us today, has the divine spark of the Creator within us, no matter which planet we originally came from; and that if we aim throughout life towards perfection in an unselfish way, we shall truly all become sons and daughters of God and ascend into the highest realm we know as Heaven?

There was one other great message of hope that came from that wonderful teachers lips.....He promised 'As I do, ye can do also'. That is worth thinking about, whether you have seen a U.F.O. or not. If we can do as He did, then one fine day we may - if we deserve to do so - be taken up by a 'cloud' to that kingdom wherein is our true Father..... It is worth the effort it costs, to get there.

NOTICE

We at UFO INFO on behalf of ourselves and every one who reads our humble publication would like to thank the person, who is known to us, for the donation kindly given which has enabled us to produce a greater quantity than at first envisaged and so satisfying the increased demand without burdening our own pockets too much. We greatly appreciate this act of generosity and once again we thank you.

At this time we will also take the opportunity to thank all who have helped in any way big or small. It is hoped that by helping us you have helped others along the not always straight and narrow but sometimes twisting path leading to a kind of Truth. Even if an answer is so fragmented as to elude meaning by its self, The whole cannot also have meaning without that tiny fragment having been slotted into its rightful place.
