

SIGNIFICANCE OF NINE REVEALED

At 7.20pm on February 18th 1970, Arthur Shuttlewood went for a short stroll along Portway and up Elm Hill before setting forth on a reporting assignment.

A pyramid-carrying UFO manifested itself in the sky between the downs of Cop Heap. Suddenly the figure aspects of '3' and '9' struck the witness. He noticed it was 7.20pm by his watch ($7+20=27=9$) on the 18th. Against a dark black cloth of blue, a silver circle appeared. Then a distinct cross lighted up the centre of the globe. From each terminal of the silver cross the figure '9' flashed with terrific brilliance.

A cross wavered before assuming the dimensional status of a Union Jack inside the circle, the latter filled by eight instead of the former four quartered sections in separation. Then the number '90' began to flicker with a fabulous oscillatory rate at the right, on the second line down, switching to its side and setting into a steady light rythm of pulsation. It blinked and winked at the extremity of the giant 'L' formed by the quarter-circle of the first ninety degrees of a sphere. Bewildered yet oddly agitated with excitement, Shuttlewoods brain raced ahead of his mind and came up with the rather shocking disclosure that '9' may be the most significant figure perhaps in the entire Universe, not just Earth; together with the '3' that spiritual and scientific factions among us recognise as holding the key to knowledge that is important. The illustration set out gives the completed pattern of the circle.

Arthur Shuttlewood submitted his '9' revelation to several UFO publications in 1970. Entitled 'Great Truths Forming in the Void, this would be the last article he would write on UFOs.

"Could this be a zodiac for the planet Earth, or some other heavenly body? The cross and the 9 together are more than symbolic, I feel intuitively, and it could be that we have established a link and that it is in the ancient esoteric astrology which predates Babylon and Chaldea, but the question must be: What people and where? Also - so important and vital to further ufological progress of true purpose - WHY? The '9' is virtually jumping off the paper, just as it did off the perimeter or edges of my vision at the time it manifested so weirdly," wrote Shuttlewood.

Cosmos journal edited by Norman Oliver and now merged with the UFO magazine Gemini, published two replies to Shuttlewood's findings which we reprint here.

"....Shuttlewood's numbers are of importance. 360 are the degrees of the zodiac on which all Astrology is worked. 90 degrees and 180 degrees are highly inimical and the source of all trouble and danger when the planets aspect each other. The other degrees shown are likewise discordant and inharmonious.

"The division of the zodiac into 12s is more beneficial..60 and 120 degrees being highly potent for good, harmony and benefits.

"Cyril Pagan himself, age 72 when he died, was/is very highly regarded by serious Astrologers and was one of the most forward thinking and progressive of men. It is intriguing indeed that this octagon has been picked up, in a vision by a non-astrologer, like Shuttlewood. This seems to have something to do with the Greater Mind, to which we are all linked and which explains telepathy to a certain extent... "

Judith Gee.

"Further to Arthur Shuttlewood's excellent article on the recurrence of the numbers '9' and '3', its possible I am just 'playing with numbers', however, I think it a coincidence that these two numbers should reappear, as is the case with the following examples:

- (1) The distance from the Sun to the Earth = 93,000,000 miles. We find there is a '9' and '3', if we divide nine into three we will get '3'.
- (2) The Earth is the 3rd planet from the Sun, (again the number three crops up).
- (3) The speed of light = 186,300 miles per sec., if we add $1+8+6+3 = 18$, and $1+8 = 9$, or if we divide 18 by 2 = 9. If we take the speed of light as 660,000,000 m.p.h. and divide the first two numbers by two we get an answer of 33, again threes.
- (4) It seems a coincidence that the Spaceling (UFO) Symposium was held on the 18th July. $1 + 8 = 9$.
- (5) Hallowe'en this year is October 27th. $2 + 7 = 9$.

All this may be just 'playing with numbers', but I am sure there are hundreds of instances where the numbers '9' and '3' appear."

Frank Norton.

Obviously the diagram of mathematical degrees in the octagon demonstrates the sum of the digits in any of the numbers to be 9, that is $3+1+5 = 9$, and so that the addition of any pair of these numbers, followed by the former procedure, still produces the 'magic' nine. Before 'playing with numbers' the important fact that should be realised is the importance of the aspect of NINE revealed in the vision as a symbolic aspect.

The editors of this Newsletter could claim the significance in the fact that the contents of this Newsletter were compiled on the 9th June (sixth month in the year, sixth day) Or the significance that the editors live in Nos. 4 and 5 Preston House and that one of us will shortly be moving to No 9. $4 + 5 = 9$! That this particular issue happens to be No 6.

If information via mediumistic channels is acceptable, the following received through the Axminster Light Centre, Castle House, Castle Hill, Axminster, Devon on May 23rd 1971. The information we feel is of importance to the extent we include it here, reprinted from the Centre's magazine Logos.

MYSTICAL NUMBER SEVEN

"We would speak to you on the subject of the Mystical Number Seven.

You already know that man has seven etheric sheaths, or bodies, - seven veils between his densely clad Ego and the Light of the Christed One, the Son (Sun) of God. You know, from your Book, there are Seven Spirits before the Throne of the Father. These Spirits are represented by the Masters of the Rays, each Ray being associated with the seven vibrational planes of each Planet, to which is linked the seven sheaths of the soul.

Each Master of each of the Major Rays is associated with the vibrational frequency, or plane, of a Planet. These are also known, in the Esoteric Teachings, as the Seven Veils. You know that at the End-Time the veil between the Third and Fourth Dimensional Planes is to be rent. As this coarsest veil is removed, it will be possible for the evolved soul to make contact more easily with the Spheres of Dwellings beyond the Fourth, and also with the Spheres of Dwellings beneath the Fourth Dimension.

The Number Seven has always been of mystical significance, hence the Seven Branched Candlesticks, the Seven Plagues, the Seven Seals, the Seven Viols, the Seven Ages of Man, the Seven Days, the Seventh Day of Rest - which can also be regarded as the Seven Days of Planetary existence and the Golden Age of 1,000 years rest - more or less.

If you keep your mind open and examine the Law of Seven you will find much hidden within these concepts waiting to be explored and to be re-discovered.

The Seven Ages of Man represents the seven sections of his life-span of Seventy Years upon this Planet. The Cosmic Clock - or the Signs of the Zodiac, being of twelve signs - twelve Constellations are incorporating, as it were, the focus of the Seven Main Rays or Vibrational Frequencies upon the Planetary Systems, and the effect of Sub-rays between them, which brings the number to twelve. This in turn, is related to the Seven Root-Races and their sub-races. (There is an inter-relationship here which we will explore further at a later date.) For the moment we ask you to bear this in mind, for here you have the beginnings of understanding of the Laws of the Cosmos which rule the destinies of men, of civilisations, of Planets and Solar-systems.

Each of the Seven Planes comes under the influence of a different Prime Ray, in the same way as each individual soul, as it discards its etheric bodies and moves forward on the Cosmic Plane. We say 'forward' rather than upward, for upwards or downwards is really an illusion, for these are in-planes, or out-planes, rather than lower or higher. - MAN MOVES INWARDS TO THE CENTRE OF HIS BEING.

Your Planet has come under the influence, predominantly, of the Violet Ray at this End-Time in its history, because the Violet Ray is, as you know, the cleansing and strengthening Ray, and, although at many times in the past of Earth's history the Violet Ray has come into focus for cleansing, it is now again that this Ray must be in prominence manifesting and permeating the whole Planet, for the whole Planet needs to be cleansed, and all men with it. We say a predominance of the Violet Ray is felt and manifesting now. This does not preclude the existence and the beneficial influence of the other Rays, for each play their part, and it is only through the influence of the Rays of Love and Devotion, of Dedication and Serenity, that you are made conscious of the Christ-Ray and the need for cleansing. For the Violet Ray is, as it were, a purgation of all that is unclean, or falling short of the requirements insisted upon by the Lords of Karma, in order that the vibrational veil may be rent.

With regard to the vibrational planes of other Planets, we would say this: each Planet within a Solar System, being one octave higher in vibration, the vibrational planes of that Planet, and the vibrational sheaths of the beings existing upon it, are so adjusted that their frequencies, their understanding, their evolutionary 'reach,' is that much greater, i.e. by what you would call 'one octave.'

THE SCIENCE OF NUMBERS

Numerology is the ancient science of numbers. The subject was developed independently in China, Egypt and Greece thousands of years ago. The system is based on the vibrations that exist in the Universe. Both scientists and modern physicists acknowledge vibration is life and all of life is vibrating. Everything is intelligent and intelligence.

Pythagoras, a native of Samos, returned to Greece from his extended travels about 400BC. With him he brought the foundation of what is now known as the Pythagorean Philosophy of Numbers. Pythagoras' fundamental belief of God, the universal creative force caused him to place the number ONE at the head of vibration as typifying creation. God, the One in All and through all, the Supreme Being. This fundamental belief was in turn taught to his pupils, and is still maintained in the numerology teachings of today's science.

Pythagoras went on to explain the number TWO as an emanation of the one, or the plane of experience, and the THREE as the perfect realisation and culmination of the ONE and TWO, making in all the perfect trinity in life and creation.

The completed system of number vibration as taught by Pythagoras extended into tens and hundreds. Yet, it was still founded on the fundamental vibrations of ONE through NINE. Numerologists can confine themselves to the cycle of one through nine and obtain results that are absolutely satisfactory. These results can be carried through to any interpretation of an individual, condition, place or circumstance.

The General Aspects of the number '3' in numerology is Expression. Number '6' represents Cosmic Adjustment. Number '9' represents completion. We are now only a breadth away from this Great Hour, we are already over the threshold.

'9' represents Completion. We have been discussing the pattern of the 27th day of August $2+7=9$.

Let us look for a moment at the significance of the '2' and the '7'.

On Thursday May 18th (18th $9+9=18!$) Bristol hairdresser Mr John Lewis and his wife Joan saw mysterious white lights in the sky over Warminster. Driving along the main Shaftesbury to Warminster road at 7.09pm they noticed three lights in triangular formation appearing stationary over the trees near Cow Down Hill. Mr. Lewis stopped the car and the couple watched what they called "an incredible sight, quite uncanny and unworldly." Two lighted objects blinked out and left one gleaming brightly. Then the two flickered on again. And six more followed suit, until nine glowing orbs studied the sky.

"They stayed in the air three minutes, drifted slowly to our left and the pattern made face on, was to us, like a figure TWO," Mr. Lewis told Warminster police.

Here we have absolute confirmation - interplay between three, six and nine aspects in the forming of the figure 2. We predict that before very long the Sign of the figure '7' will be shown in the skies over Warminster.

Seven has always been considered a significant number. We immediately associate '7' as being lucky. The 21st birthday was selected as the coming of age using the composition of $3 \times 7 \text{ years} = 21$. It is interesting to note that in 1970 the coming of age was lowered to 18!

The Bible is considered in many quarters to be not only a written record of past events that occurred in Biblical times, but also foretells what is happening today as we lead up to the Breakthrough or the Biblical Har-Magedon. Repeatedly the figure seven is described. Watching for the next meaningful sign the apostle John says,

"And I saw in heaven another sign, great and wonderful, seven angels with seven plagues. These are the last ones, because by means of them the anger of God is brought to a finish." Revelation 15:1.

"And there came one of the seven angels who had the seven bowls which were full of the seven plagues." Revelation 21:9

The book written by John is said to have been a 'spirit of inspiration' to be written as the book of Revelation. The figure seven is described repeatedly in the work, indicating the point in time when the conflicts

"We would refer you to the Revelations of John the Divine, and to the Assembly in the Heavens at the time of rejoicing and witnessing the outcome of these tormented Ages of Men of Earth. We say to you, try to envisage an Earth now glorified, and showing forth, in its full beauty, the auras of its seven planes, and, in like manner, the auras of the other planets of this System, cleansed and glorified, shining forth in their pristine beauty before the Father of these Seven Systems. You shall be present, and a witness to all that shall take place.

The Seven Seals, which are broken, referred to in Revelations, are, of course, the Seven Seals of the Books of Life which severate one section from another, one plane from another, one vibrational frequency from another - according to the controlling Rays.

The Seven Plagues, or the Seven Vials which are broken and spilt upon the Earth are the Seven Major Conditions of Life affecting conscious-evolving souls. The Conditions poured out upon the Earth, at this present time, are of great moment, and are, if you wish, to put it in this way, seven major final tests which have to be surmounted.

Some who are walking the Earth at the present time have passed a few of these tests. Some have passed most of them. Others have scarcely touched the fringe of the tasks set. Some have been aware of and taken these tests step by step during the Seven Stages of their existence, because they had sought to do so in connection with their mission upon the Earth in this incarnation. There are others who will take the Seven Tests at this late Hour, and pass them with honours.

The Number Seven is associated with Power, with Protection, with Completion. It is part of the Wonder of Wonders, the Holy of Holies, the Mystery of Mysteries, and of the Kingdom of Light. It is the Full Harvest after many years of Generation from which the Purest Grain shall be Reaped.

For some it is the Point of No Return - and the Commencement of the Upward Arc (the Return to Godliness), the Movement of Matter into Light and to Spirit. From Finitude to Infinity!

We think enough has been said, for this evening, to promote further discussion. We leave you with this thought: the understanding of the Law of Seven is the Beginning of Wisdom. The movement towards Perfection of Body, Mind and Spirit, in accordance with the Will of God.

We withdraw now from the fringe of your awareness, and we bless you all, that the Light may grow stronger upon your Planet. For the Planetary Logos is weary, so weary, of waiting for the fulfilment of the Law. But the Law is being fulfilled, and shall be completed - very soon.

We bless you: Pax Vobiscum...."

Channel: Alpha

The Axminster Light Centre was formed by a nucleus of workers in 1970. This nucleus is a medium for two channels, receiving instructions and direction telepathically. The two channels comprise two twin-soul units, meaning, therefore, that there are two male and two female workers within the nucleus, paired as twin-souls.

Patricia and Andrew receive the Channel Alpha, Celia and Anthony - Channel Beta.

One of the main aspects of this group is the bringing of Unity and Harmony upon all levels of being. There are many Centres and many people whose dormant faculties are being rapidly developed, each one of whom have a certain aspect of the total Plan. Each aspect by itself is of little use to mankind except in a small way. Put all of the pieces together and the Unity of the Great Plan will be seen.

For those who can accept the Bible as a Prophecy of things to come - Matthew 24 is most revealing. Jesus speaks of false Christs coming to mislead us. Of Nation rising against nation and kingdom against kingdom, and food shortages and earthquakes in one place after another.

"Immediately after the tribulation of those days the sun will be darkened, and the moon will not give its light, and the stars will fall from heaven, and the powers of the heavens will be shaken. And the sign of the Son of Man will appear in heaven, and then all the tribes of the earth will beat themselves in lamentation, and they will see the Son of man coming on the clouds of heaven with power and great glory."

Matthew 24:29

Can it be just mere coincidence that on July 8th 1973 (the Seventh month in the year) there will be a Total Eclipse of the Sun by the moon? This is fact. Astronomers expect the eclipse to be of Seven minutes duration - one of the longest known. It is expected to completely cover Central Africa and partially elsewhere. Those Seven minutes could be more than enough time in which to activate that which is to come, yet that which we cannot put into words.

Next year will be the year Nineteen hundred and seventy three - 1973 -. Remember !! was the aspect Pythagoras termed the first - the Absolute. Does the --973 speak for itself, or is this just 'playing with numbers?'

No prophecies, no wild claims. We are aware that the Planet Earth is on the brink of dramatic changes - there must be these changes if Man is going to continue to survive and live peacefully. We are aware that New Enlightenment is flooding in throughout the world. More and more of Mankind is being AWAKENED to these simple facts. We are aware that the appearance of UFOs in our skies has, on CERTAIN people, the effect of AWAKENING.

One of course must be careful to sift only the facts. So often the mistake can be made, once a pre-conceived idea has been formulated, of reading almost anything in that is suitable to that idea.

The contents of this issue of the Newsletter are far from the 'Nuts & Bolts' aspect, one of merely investigating and correlating reports of sightings. That approach has been going for twenty years, the results are clearly negative. Those who involve themselves in purely investigating UFOs, only become more involved and lost in a forever elusive enigma.

By August 27th 1973 we shall be in a much clearer position to assess the value of this document.
